### ALL ROUTES

Once on Shaughnessy Street, about half a mile along on the left hand side (through one set of lights) is a pullout overlooking Colony Farm Regional Park (blue star on map). Park here. There is also a small additional parking lot on the opposite side of the road but watch for restrictions when parking on this side of the road.

Walk through the metal gate and down along trail (Pumphouse Trail) and in to the park – You will pass a small wetland on the right – 200 yards after the wetland is a metal gate on the right-hand side and a 'Wildlife Habitat Area – Research Personnel Only' sign – walk through the gate (PLEASE CLOSE AND LATCH IT BEHIND YOU) and follow the trail around to the banding station.
